

## Data Centre + GRID

## Data Centre

- A niche
- Objective: science
- Requires scientific *and* technical expertise, talking to each other
- Information validation: keep track of
  - quality
  - what can (and must not) be done with data
  - documentation about data
  - ...

## Data Centre + GRID (1)

- Clear and negotiated interfaces
- Discussions with partners
  - international level
  - metadata, tools

## Data Centre + GRID (2)

- New niches
  - Models
  - « Large database science »
  - ...
- « GRID coordination »
  - User scenarios
  - Articulation between building blocks
  - ...
